Sam Francisco, that's the freshness of unlimited music arrangements featuring new kinds of pop music.

Sam Francisco is the **IDEAL INTERNATIONAL ROCK STAR.**  
**HE** wears **sun** glasses.  
**HE's** always **bad** tempered.  
**HE** misbehaves.  
**HE's** depressive

.... - but he's **SO** sweet.

### **AND: Sam Francisco's got HIS OWN GREAT LEGEND:**

Some people say Sam Francisco was born in the late seventies of the last century.

It's confirmed that, for a long long time, Sam Francisco concealed his obsession with songwriting. The legend says that his outing was when he won the web site "king-of-rock.com" in a tombola. Other legends say that he had always been the one and only King-Of-Rock alive and that it was bullshit to say there was any period in his life without singing.

These legends say he even started singing when he was less than one year old. Photos confirm that.

According to current sources, Sam Francisco's existence is the result of a science fiction like incident.
